DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 1 055 506; JP 2000169602; JP2001169601; JP 2000135737; JP 2002046176; JP 2002046173; JP 2001205703; JP 2000167928; and JP 2002046178.

The cited prior arts disclose a heat-shrinkable polyester film having heat-shrinkage percent characteristics as claimed. See the abstracts of the cited prior arts.

3. (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-5 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Itoh et al 5,451,445.

Art Unit: 1711

The cited common-inventor patent discloses a heat-shrinkable polyester film has features and characteristics as claimed. See the abstract and the claims of the cited prior art.

5. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1, 3, and 5 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 3, and 4 of prior U.S. Patent No. 5,458,437 and 6,663,928. This is a double patenting rejection.

6. Claims 1, 3, and 5 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 2, and 7 of prior U.S. Patent No. 6,548,595. This is a double patenting rejection.

7. Other references listed on PTO-1449 have been made part of the record.
